

## Attention Outing Participants

We are very excited to announce the opening of the brand new 007 bent grass greens that were built to USGA specs. With the grass being new, all players will be required to wear approved golf shoes or sneakers that have a flat bottom. **Golf Shoes will NOT be permitted on the courses that have soft spikes, nubs, or prongs that would penetrate the turf.** An example of an approved golf shoe is shown below. They are available in the golf shop at a special sale price. If there are any questions regarding footwear, please call the pro shop in advance of your scheduled day to play at 610.399.8898.
